### Correction to: Minds and Machines 34:12 (2024)

<https://doi.org/10.1007/s11023-024-09668-y>

In this article, the following errors have been missed in the corrections stage and the same has been corrected with the correction article.

Data Availability section was inadvertently published and it has been removed from the article.

The reference Wolters, A. (2022). Guiding the specification of sociotechnical Machine Learning systems: Addressing vulnerabilities and challenges in Machine Learning practice (Unpublished master's thesis). Massachusetts Institute of Technology is updated to Wolters, A. (2022). Guiding the specification of sociotechnical Machine Learning systems: Addressing vulnerabilities and challenges in Machine Learning practice (Published master's thesis). Delft University of Technology.

Missing equal contribution text and Acknowledgments were included in the original article.

**Acknowledgements** We would like to thank Deeploy, and in particular Bastiaan van de Rakt and Nick Jetten, for providing opportunities for empirical research and internship supervision, and Marijn Janssen and Seda Gürses for their invaluable feedback.

The original article has been corrected.

**Open Access** This article is licensed under a Creative Commons Attribution 4.0 International License, which permits use, sharing, adaptation, distribution and reproduction in any medium or format, as long
