DREDGING SUMMIT & EXPO 2018 TECHNICAL PAPERS

Session 1a. Engineering with Nature: Defining the Problem/Needs (PANEL) <i>Sponsored by TAMU and ERDC</i>	Paper Number	Page Number
Plenary – City of Norfolk/U.S. Navy – Hampton Roads/Norfolk Area Flooding Issues and Resiliency Needs S. Smith (City of Norfolk)	Presentation Only	
Coastal Resiliency of the Hampton Roads/Norfolk Area and Issues Affecting Operational Readiness: Military Perspective RADM (Rtd.) A. Phillips (Consultant)	Presentation Only	
Coastal Resiliency of the Hampton Roads/Norfolk Area and Issues Affecting Operational Readiness: Ports Perspective CAPT (Rtd.) K. Chope, (Virginia Port Authority)	Presentation Only	
Defining the Problem/Issues – Facilitated Discussion R. Mohan (Texas A&M University/Anchor QEA) and T. Bridges (U.S. Army Engineer Research and Development Center)	Presentation Only	
Session 1b. Beach Nourishment	Paper Number	Page Number
Beach Development and Protection of Resort Coastline Using Geotextile Tubes C. Timpson (TenCate Geosynthetics) and T. Stephens (TenCate Geosynthetics)	1b-1	1
Protein Polysaccharide Biopolymers (PPBs) Technology Evaluation for Renourished Beach Erosion Control F. Ocaña (Marcost de México), A. Dahmani (SAMARCEL), R. Pinzón (Marcost de México), D. Ceballos (Marcost de México), I. Mariño-Tapia (CINVESTAV-IPN), and L. Pinzón-Espinosa (Marcost de México)	1b-2	19
The Application of an Active Sediment Tracing Technique to Assess the Efficacy of Nearshore Placement of Dredged Material for Beach Nourishment Purposes J. Poleykett (Partrac), P. Friend (Partrac), K. Black (Partrac), M. Wright (Partrac), M. Davidson (DavidsonMA@angus.gov.uk) and P. Morton (Angus Council)	1b-3	31
Investigating Sediment Color Change Dynamics to Promote Beneficial Use Applications J. Berkowitz (U.S. Army Engineer Research and Development Center), C. VanZomeren (U.S. Army Engineer Research and Development Center), and A. Prietas (U.S. Army Engineer Research and Development Center)	1b-4	47
Session 2a. Engineering with Nature: Tools and Techniques (PANEL) <i>Sponsored by TAMU and ERDC</i>	Paper Number	Page Number
Integrating EWN/NNBF as part of Dredging and Coastal Restoration J. Gailani (U.S. Army Engineer Research and Development Center)	Presentation Only	
Dredging Techniques for Engineering with Nature R. Randall (Texas A&M University)	Presentation Only	
Opportunities and Challenges for Implementing NNBF as part of Dredging – Some Case Studies R. Ramsdell (Great Lakes Dredge & Dock)	Presentation Only	

Session 2a. Engineering with Nature: Tools and Techniques (continued) <i>Sponsored by TAMU and ERDC</i>	Paper Number	Page Number
Review of Recent Experience with Thin Layer Placement and Future Guidance in the U.S. T. Welp (U.S. Army Engineer Research and Development Center)	Presentation Only	
Dune and Coastal Resiliency using EWN J. Figlus (Texas A&M University, Galveston)	Presentation Only	
EWN and NNBf Integration into Dredging – Galveston District Perspective E. Russo (USACE Galveston District)	Presentation Only	
Session 2b. Innovative Equipment and Techniques	Paper Number	Page Number
The Future of Remediation at Contaminated Sediment Sites – Update on How Dredge Companies are Evolving to Meet Current Challenges G. Hicks (Tetra Tech) and McGee, S. (Tetra Tech)	2b-1	63
Application of Alum to Improve Post-Dredging Water Quality at the Ashland/NSP Superfund Site Pilot Project S. Garbaciak (Foth Infrastructure & Environment), R. Onderko (Foth Infrastructure & Environment), D. Roznowski (Foth Infrastructure & Environment), S. Kozicki (Foth Infrastructure & Environment), M. Ciardelli (Foth Infrastructure & Environment), R. Brillhart (Foth Infrastructure & Environment), J. Morris (Foth Infrastructure & Environment), J. Wisher (Foth Infrastructure & Environment), K. Aukerman (Foth Infrastructure & Environment), B. Bell (Envirocon), and T. Lee (J.F. Brennan Company)	2b-2	72
Rapid Solidification of Dredged Coal Combustion Residuals (CCR) & Wet Ash Wastes M.Khire (UNC Charlotte), C.Hardin (UNC Charlotte), Q.Barefoot (Mineral Processing Services), J.Meagher (Mineral Processing Services), and R. Traver (Pace Engineering)	2b-3	88
Use of Polyethylene Device (PED) Passive Samplers at Contaminated Sediment Sites to Support Remedial Planning and Progress Monitoring Lisa F. Lefkowitz (Battelle Memorial Institute)	Presentation Only	
Dredged Material Testing – A Work Flow Guide for Project Managers and Testing Laboratories J. Bourdeau (Key Environmental) and J. Occhialini (Alpha Analytical)	Presentation Only	
Session 3a. Engineering with Nature: Stakeholder Perspectives and Next Steps (PANEL) <i>Sponsored by TAMU and ERDC</i>	Paper Number	Page Number
Considerations for EWN/NNBF – Owner’s Perspective S. Douglas (New Jersey DOT)	Presentation Only	
EWN and Benefits to Threatened and Endangered Species C. Cairns (National Oceanic and Atmospheric Administration)	Presentation Only	
How do we implement effective EWN/NNBF projects? What are the data and R&D Needs? T. Bridges (U.S. Army Engineer Research and Development Center) and R. Mohan (Texas A&M University/Anchor QEA)	Presentation Only	

Session 3b. Innovative Remediation	Paper Number	Page Number
Mile Point Training Wall Reconfiguration K. Simankova (Manson Construction), R. Mander (Manson Construction), and P. Kenning (Manson Construction)	3b-1	96
Environmental Dredging with High Accuracy J. Nielsen (EIVA A/S), K. Tomanka (OARS-HPSG), and S. Steinmetz (EIVA A/S)	3b-2	113
Evolution of an Innovative Dredging Technology for Harvesting Coarse-Grained Sediment R. Tucker (Streamside, LLC), R. Trevino (City of Galveston), T. Welp (U.S. Army Engineer Research and Development Center), C. Maglio (U.S. Army Engineer Research and Development Center), T. Risko (Freese and Nichols, Inc.), Z. Tyler (U.S. Army Engineer Research and Development Center), J. Moya (Freese and Nichols, Inc.), C. Weber (Freese and Nichols, Inc.), J. Figlus (Texas A&M University), W. Fuller (Texas A&M University), and R. Thomas (USACE Galveston District)	3b-3	119
Novel solutions for minerals and aggregates: ¡VAMOS! M. Winkelman (Damen Dredging Equipment), D. Dijkhoorn (Damen Shipyards Gorinchem), and O.P. Marcus (Damen Shipyards Gorinchem)	3b-4	134

PLENARY PANEL: Springboarding New Talent into Your Safety Culture

Sponsored by the WEDA Safety Commission

Moderator: Julie Hile, President, Hile Group; WEDA Safety Commission Chair

Session 4a: Dredging Research	Paper Number	Page Number
A Pseudo-Analytical Model for CSD Spillage Due to Rotational Velocity-Induced Flow J. Werkhoven (Delft University of Technology), B. Nieuwboer (Delft University of Technology), A. Louis (IHC Holland B.V.), R. Ramsdell (Great Lakes Dredge and Dock), S. Miedema (Delft University of Technology)	4a-1	145
Refinements in STFATE Modeling Allowing for Greater Dredge Volume Per Load P. Berman (ANAMAR Environmental Consulting)	4a-2	162
Real Time Production Efficiency Based on Measurement of Flow Velocity and Flow Profile H. Wei (Industrial Tomography Systems), C. Qiu (Industrial Tomography Systems), K. Primrose (Industrial Tomography Systems), and W. Hazineh (Industrial Tomography Systems)	4a-3	171
Slurry Transport, The Concentration Distribution, A Continuing Study S. Miedema (Delft University of Technology)	4a-4	179
Slurry Transport, Fully Stratified Flow in the Sliding Flow Regime S. Miedema (Delft University of Technology)	4a-5	193

Session 4b: Marine Habitat Considerations	Paper Number	Page Number
Evaluating Biological Effects of Dredging-Induced Underwater Sounds A. McQueen (U.S. Army Engineer Research and Development Center), B. Suedel (U.S. Army Engineer Research and Development Center), J. Wilkens (U.S. Army Engineer Research and Development Center), and M. Fields (U.S. Army Engineer Research and Development Center)	4b-1	202
Can Coral Reefs and Large-Scale Dredging Projects Coexist? W. Precht (Dial Cordy and Associates)	4b-2	214

Session 4b: Marine Habitat Considerations (continued)	Paper Number	Page Number
Essential Fish Habitat Considerations for Dredge Operations: Mitigation Measures and Case Studies from Alaska S. Kelly (National Marine Fisheries Service Alaska Region) and L. Ames (National Marine Fisheries Service Alaska Region)	4b-3	222
Spatial Interpolation as a Tool to Assess the Effects of Ocean Disposal on Economically Important Species: Tilefish Habitat at Miami ODMDS as a Case Study J. Seitz (ANAMAR Environmental Consulting)	4b-4	235
Challenges and Advancements in Sediment Transport Modelling of Dredging for Complex Coastal Conditions D. Fissel (ASL Environmental Sciences), Y. Lin (ASL Environmental Sciences), and T. Mudge (ASL Environmental Sciences)	4b-5	249

Session 5a: Disposal	Paper Number	Page Number
Scow Geofence System (SGS) and its Application in Dredged Material Disposal N. Bourque (Cashman Dredging and Marine Contracting Company), F. Belesimo (Cashman Dredging and Marine Contracting Company), and T. Mannering (Cashman Dredging and Marine Contracting Company)	5a-1	260
Advanced Monitoring of Dredged Material Placement Sites at the Mouth of the Columbia River J. Norton (USACE Portland District), H. Moritz (USACE Portland District), M. Ott (USACE Portland District), J. McMillan (USACE Portland District), and G.C. Roegner (NOAA)	5a-2	266
Quality Assurance, Quality Control and Long-term Performance Monitoring of Engineered Capping Systems Placed Over Environmentally Impacted Sediments D. Roznowski (Foth Infrastructure & Environment), T. Gawronski (Foth Infrastructure & Environment), T. Van Hoof (Foth Infrastructure & Environment), and T. Lee (JF Brennan)	5a-3	276
Sand Stabilization and Sediment Resuspension Mitigation Optimization Using Innovative Protein Polysaccharide Biopolymers (PPBs) A. Dahmani (SESI Consulting Engineers), F. Dahan (SESI Consulting Engineers), F. Qweider (University of Connecticut), C. Ligeikis (University of Connecticut), J. Mulqueen (University of Connecticut), C. Bagtzoglou (University of Connecticut), R. Albino, R. Beach (GZA), S. Damon (LANGAN) and E. Anzinger (LANGAN)	5a-4	292
Estimating Turbidity near a Dredge Operation using a Weather Balloon-Mounted Camera J. Wilkens (U.S. Army Engineer Research and Development Center), A. McQueen (U.S. Army Engineer Research and Development Center), B. Suedel (U.S. Army Engineer Research and Development Center), S. Hammond (U.S. Army Engineer Research and Development Center), A. Davis (U.S. Army Engineer Research and Development Center), H. Bennet (U.S. Army Engineer Research and Development Center), M. Fields (U.S. Army Engineer Research and Development Center), C.L. Saltus (U.S. Army Engineer Research and Development Center), and J.M. Corbino (USACE New Orleans District)	5a-5	309

Session 5b: Environmental Remediation	Paper Number	Page Number
Save Our Indian River Lagoon Project funded Muck Removal, Brevard County Natural Resources Management Department, Brevard County, Florida R. Wagner (Wood Environment and Infrastructure Solutions), M. Culver (Brevard County Natural Resources), and L. Lumbard (Wood Environment and Infrastructure Solutions)	5b-1	319
Wick Drains for Soil Consolidation and Environmental Remediation at The Atlantic Wood Superfund Site, Portsmouth, VA K. Wikar (Hayward Baker) and J.R. Hill (Hayward Baker)	5b-2	332
Update on the Fox River Remediation Project, Green Bay, WI R. Feeney (Tetra Tech), T. Blackmar (Tetra Tech), P. LaRosa (AnchorQEA), D. Binkney (AnchorQEA), G. Smith (J.F. Brennan), and D. Bauman (J.F. Brennan)	5b-3	341
Cedar Creek Site – Operable Unit 2a: Lessons Learned During Implementation of an Environmental Dredging Project Located Within A Historic Town K. Powell (AnchorQEA), C.F. Dousharm (Mercury Marine), J.A. Detor (AnchorQEA), J. Doody (AnchorQEA), and M. Conese (AnchorQEA),	5b-4	353
Lessons Learned Managing Multiple Waste Streams at a Superfund Alternative Site B. Cardwell (IAI), P. Olander (J.F. Brennan)	5b-5	367
Session 6a: Safety <i>Sponsored by the WEDA Safety Commission</i>	Paper Number	Page Number
Navigating the Future of Dredging Safety, One Project Launch Meeting at a Time M. Davis (Hile Group)	6a-1	380
The Gravity of Fall Protections Use: An Analysis of Available Data C. Tennant (Manson Construction) and J. Henriksen (Manson Construction)	6a-2	389
Leadership “A Winning Attitude” P. Cantner (CEDA)	Presentation Only	
Future Forward: Safety Problem Solving With Next-Gen Crews J. Hile (Hile Group)	6a-4	402
Session 6b: Beneficial Reuse	Paper Number	Page Number
CEDA Working Group: Beneficial Use of Sediment (WGBU) N. Buhbe (Mission Environmental)	Presentation Only	
Assessment of Sediment Treatment and Beneficial Use during Gowanus Canal Pilot Study J. Fears (Geosyntec), R. Hyatt (Geosyntec), D. Nicholas (Geosyntec), J. Gasser (Geosyntec), James Brinkman (Geosyntec)	6b-2	409
Dredging the Manasquan River Complex – Creating Capacity, Beneficial Re-Use through Beach Nourishment and Enhancing the Greater Good of the Manasquan Inlet Area W. Douglas (New Jersey DOT), W. Henderson (New Jersey DOT), M. Marano (WSP USA), T.W. Chen (WSP USA), and S. Flanigan (Gahagan & Bryant)	6b-3	422
La Quinta Terminal Mitigation Project: Large-Scale Dredged Material Beneficial Reuse Facility for Estuarine Habitat Creation in Corpus Christi Bay, TX L. Maristany (Mott MacDonald), A. Horine (Mott MacDonald), and P. Carangelo (Port of Corpus Christi)	6b-4	437

PLENARY PANEL: Dredging and Mitigation/Adaptation to Climate Change: Success Stories*Sponsored by WEDA Environmental Commission**Moderator: Craig Vogt, President, Craig Vogt Inc; WEDA Safety Commission Chair*

Session 7a: Planning & Management	Paper Number	Page Number
Environmental Monitoring and Management During the Construction Dredging for the First Stage of New Port of Veracruz, Mexico J. Ramirez- Macías (Port of Veracruz), F. Liaño-Carrera (Administración Portuaria Integral de Veracruz), T. Camarena-Luhrs (Parque Nacional Sistema Arrecifal Veracruzano), A. Gómez-Barrero (Argo Consultores Ambientales) and D. Salas-Monreal (Universidad Veracruzana)	7a-1	452
Application of Feedback EMMP Approaches to the Management of Dredging Activities in Sensitive Temperate and Tropical Coastal Environments T. Foster (DHI Water & Environment), J. van Berkel (DHI Water & Environment), V. Hoa (DHI Water & Environment), C.A. Tan (Advisian)	7a-2	464
Alternatives Analysis, Engineering Design, and Construction Planning for A 10.5-Mile, Inland Drinking Water Canal: Delaware And Raritan Canal, New Jersey T. Merritts (AnchorQEA)	Presentation Only	
Balancing Future Navigation Channel Maintenance and Remedial Design Goals: Clean Water Act Section 408 Considerations K. McCormick (EA Engineering, Science, and Technology), J. Beaver (EA Engineering, Science, and Technology), and M. Ciarlo (EA Engineering, Science, and Technology)	7a-4	476
Dredging for Sustainable Infrastructure R. Kolman (IADC)	Presentation Only	
Session 7b: Real-time Monitoring & Surveying	Paper Number	Page Number
MUD, A New Acoustic Echosounder For Sediment Monitoring T. Mudge (ASL Environmental Services), D. Lemon (ASL Environmental Services), J. Buermans (ASL Environmental Services), K. Borg (ASL Environmental Services)	7b-1	485
The Integrated Forward-looking System on the 2018 Build Trailing Suction Dredger (TSHD) Arzana L. van Ingen (IHC America), R. Mourik (IHC Systems), M. van Eeten (IHC Systems)	7b-2	497
Constructing a Cost Effective Unmanned Surface Vessel for Use in Dredging Applications D. O'Brien (SurvTech Solutions), H. Simpkins (SurvTech Solutions), and D. Graves (SurvTech Solutions)	7b-3	508
Improved Channel Evaluation Using Automatic Identification System and Hydrographic Survey Data L. Dunkin (U.S. Army Engineer Research and Development Center), C. Saltus (US Army Engineer Research and Development Center), K. Mitchell (U.S. Army Engineer Research and Development Center), and B. Scully (U.S. Army Engineer Research and Development Center)	7b-4	515
Geophysical 4D Modelling for Geological Site Investigations J. Sawyer (ArcDMC Sediment Solutions), S. Patel (ArcDMC Sediment Solutions), P. Brabers (Demco NV)	7b-5	527
