

MyTraining

Micro-manage training to your needs & preferences

Context

ASML's newest system requires a future proof way of working in the Training Center. This will be a vibrant environment where learning by doing is stimulated.

Functionalities of tool

- Book training time slots according to your needs
- Self-direct your training, while encountering a planning guidance
- Explore other training programs for personal development awareness

User & company value

- Increases confidence through practice opportunities and effective hands-on slots
- Boosts motivation by a sense of autonomy and purpose
- Supports optimal field self-sufficiency and decreases training documentation time
