Problem Statement.

How can we re-develop the existing chawl developments of Nalasopara, utilising the current systems of private development, in a way that caters for the precarious and informal nature of its inhabitants in a way which meets their social, sanitary, economic needs and ambitions ?

Research Question.

*How can we re-develop the **existing chawl** developments of Nalasopara, utilising the current systems of **private development**, in a way that caters for the precarious and informal nature of its inhabitants in a way which meets their social, sanitary, economic **needs and ambitions** ?*
