The authors would like to correct the value of water-related electricity consumption at utility as a percentage of total electricity consumption for Australia (2015). The correct value is 1.1% in Figure 2, and Table S1-2 and Figure S1-2 (Supplementary Information 1 of Appendix B). Associated with this error, the water-related electricity consumption at utility for Australia (2015) should be 10.2 PJ in Table S1-2. The authors would like to apologise for any inconvenience caused. There are no changes to conclusions or other sections of the paper.

Please find below amended Figure 2, and Table S1-2 and Figure S1-2 (Supplementary Information 1)

Table S1
2 – Utility electricity consumption as a percentage of total regional electricity consumption

Region of Study (Reference Year)	Total electricity consumption by region (PJ)[A]	Water-related electricity consumption at utility (PJ)	Water-related electricity as a percentage of total electricity consumption by region	References
Australia (2015)	908.5	10.2	1.12%	[3]
Brazil (2012)	1,702.9	33.7	1.98%	[4]
China (2011)	13,908.4	432.3	5.01%	[6]
Global (2014)	–	3952.0	4.00%	[17]
Japan (2006)	3,531.7	54.1	1.53%	[8, 9]
Netherlands (2007)	384.8	8.7	2.25%	[10]
Singapore (2012)	159.5	3.0	1.90%	[11]
Spain (2008)	955.5	58.8	6.15%	[12]
United States (2010)	13,690.2	203.3	1.49%	[18]
California (2001)	901.8	45.9	5.09%	[19]
South East Queensland (2012)	216.7	1.4	0.63%	[16]

Fig. 2 (amended). Electricity consumption by utilities as a percentage of total electricity consumption across countries and regions. (See Table S1-1 and Table S1-3 in the Supplementary Information 1 for references).

Supplementary Information 1.

[A] Based on total final consumption data from the International Energy Agency, if the referenced study/dataset does not provide.

Figure S1-2 Utility electricity consumption as a percentage of total electricity consumption across each country or region.
