

HERITAGE AS PART OF THE PALIMPSEST

Rethinking heritage at risk in London through an approach that is driven by the context

Introduction

Research set up

Research question

Field of research: The Royal London Hospital

Theoretical foundation

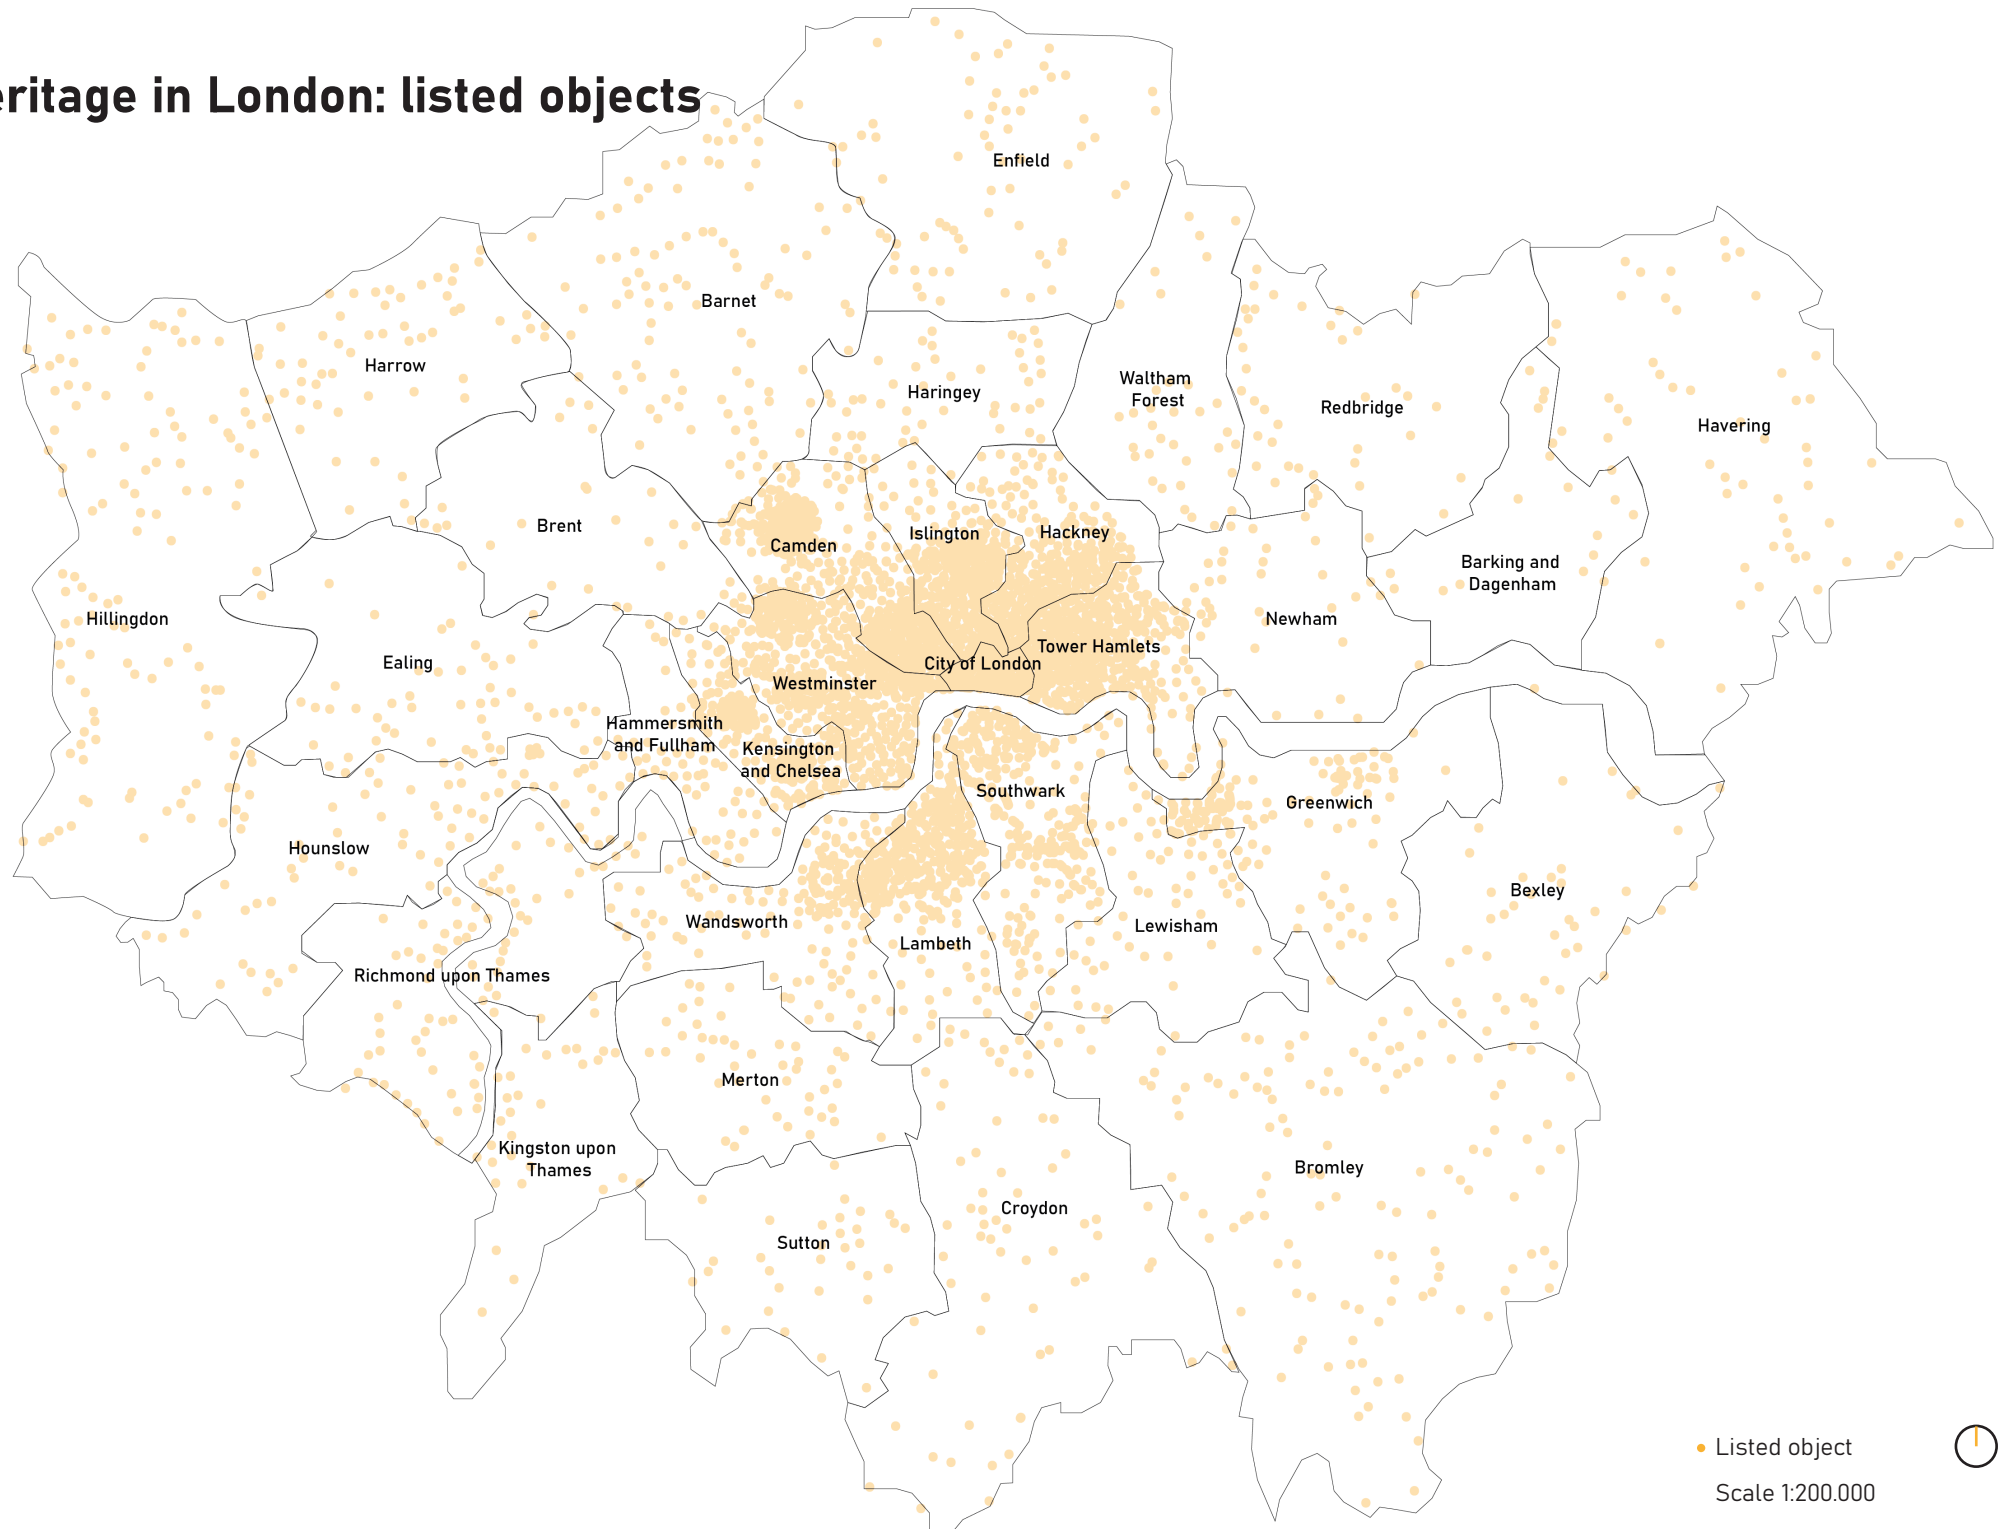

Application of the approach

Urban scale & building scale

Conclusion and reflections

INTRODUCTION

Heritage in London: listed objects

Heritage in London: Heritage at Risk

• Listed object at risk 
Scale 1:200.000

HERITAGE AT RISK

**“Historic buildings and sites at risk of being lost through neglect,
decay or deterioration”**

Historic England

Approaches towards heritage

Heritage that is not connected to the layers of palimpsest

Problem statement

Heritage is not part of
the palimpsest

DISCREPANCY

Heritage is approached
from the object itself

RESEARCH SET-UP

In what way can a context-driven approach contribute to making heritage, that lost connection to the surroundings, an integral part of the current palimpsest again?

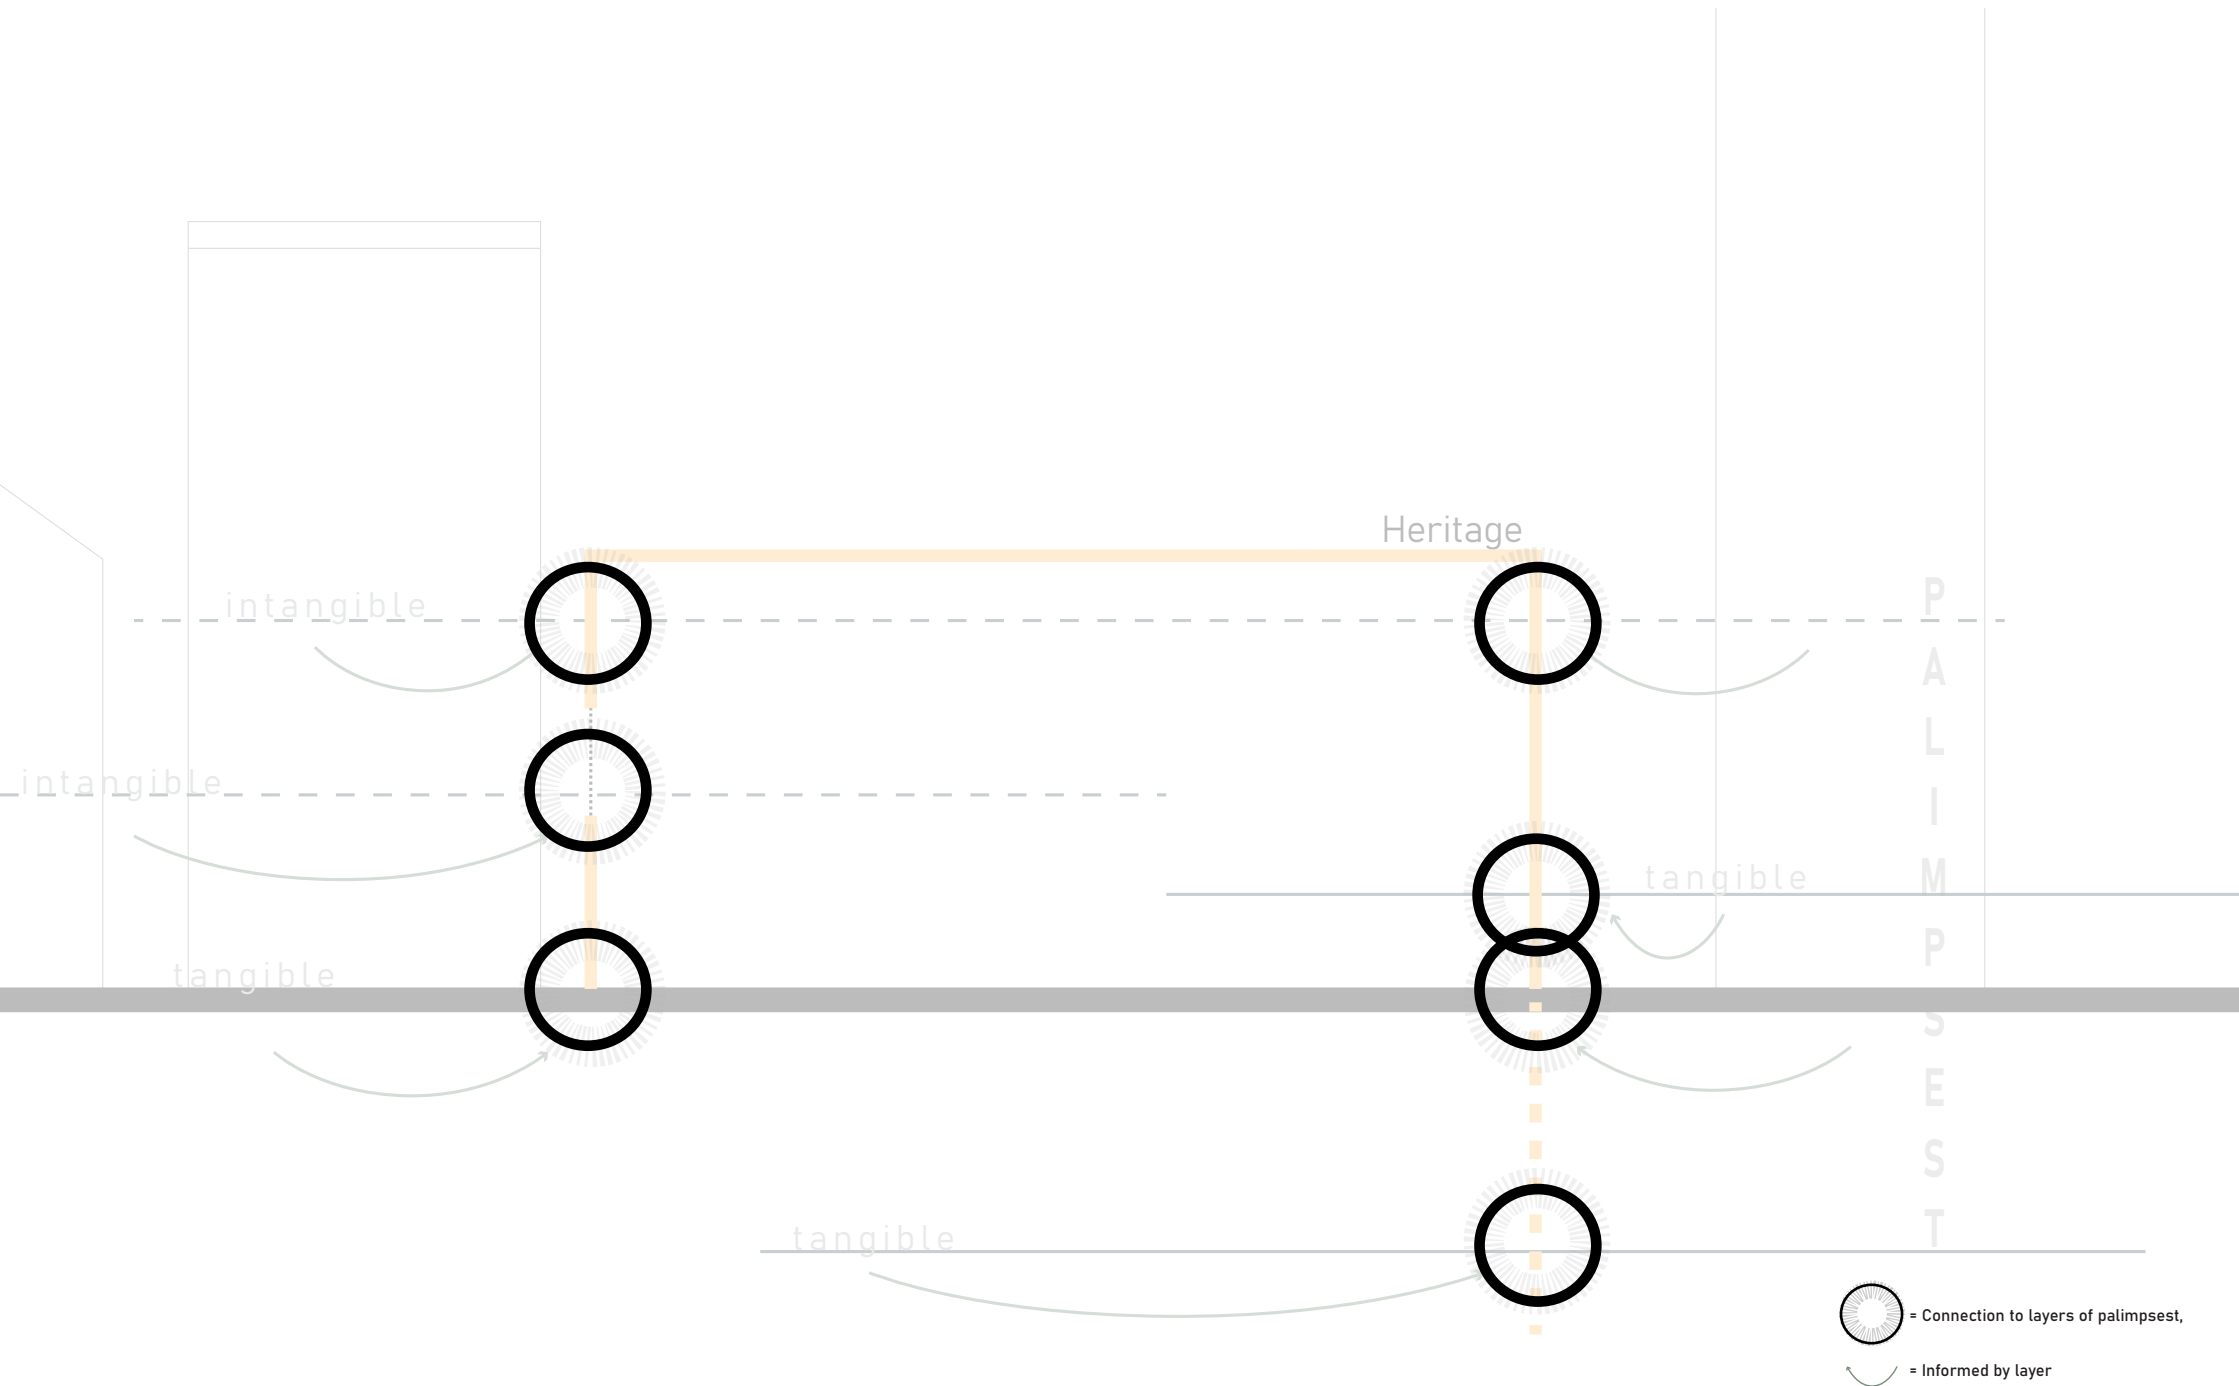

Current situation

Goal

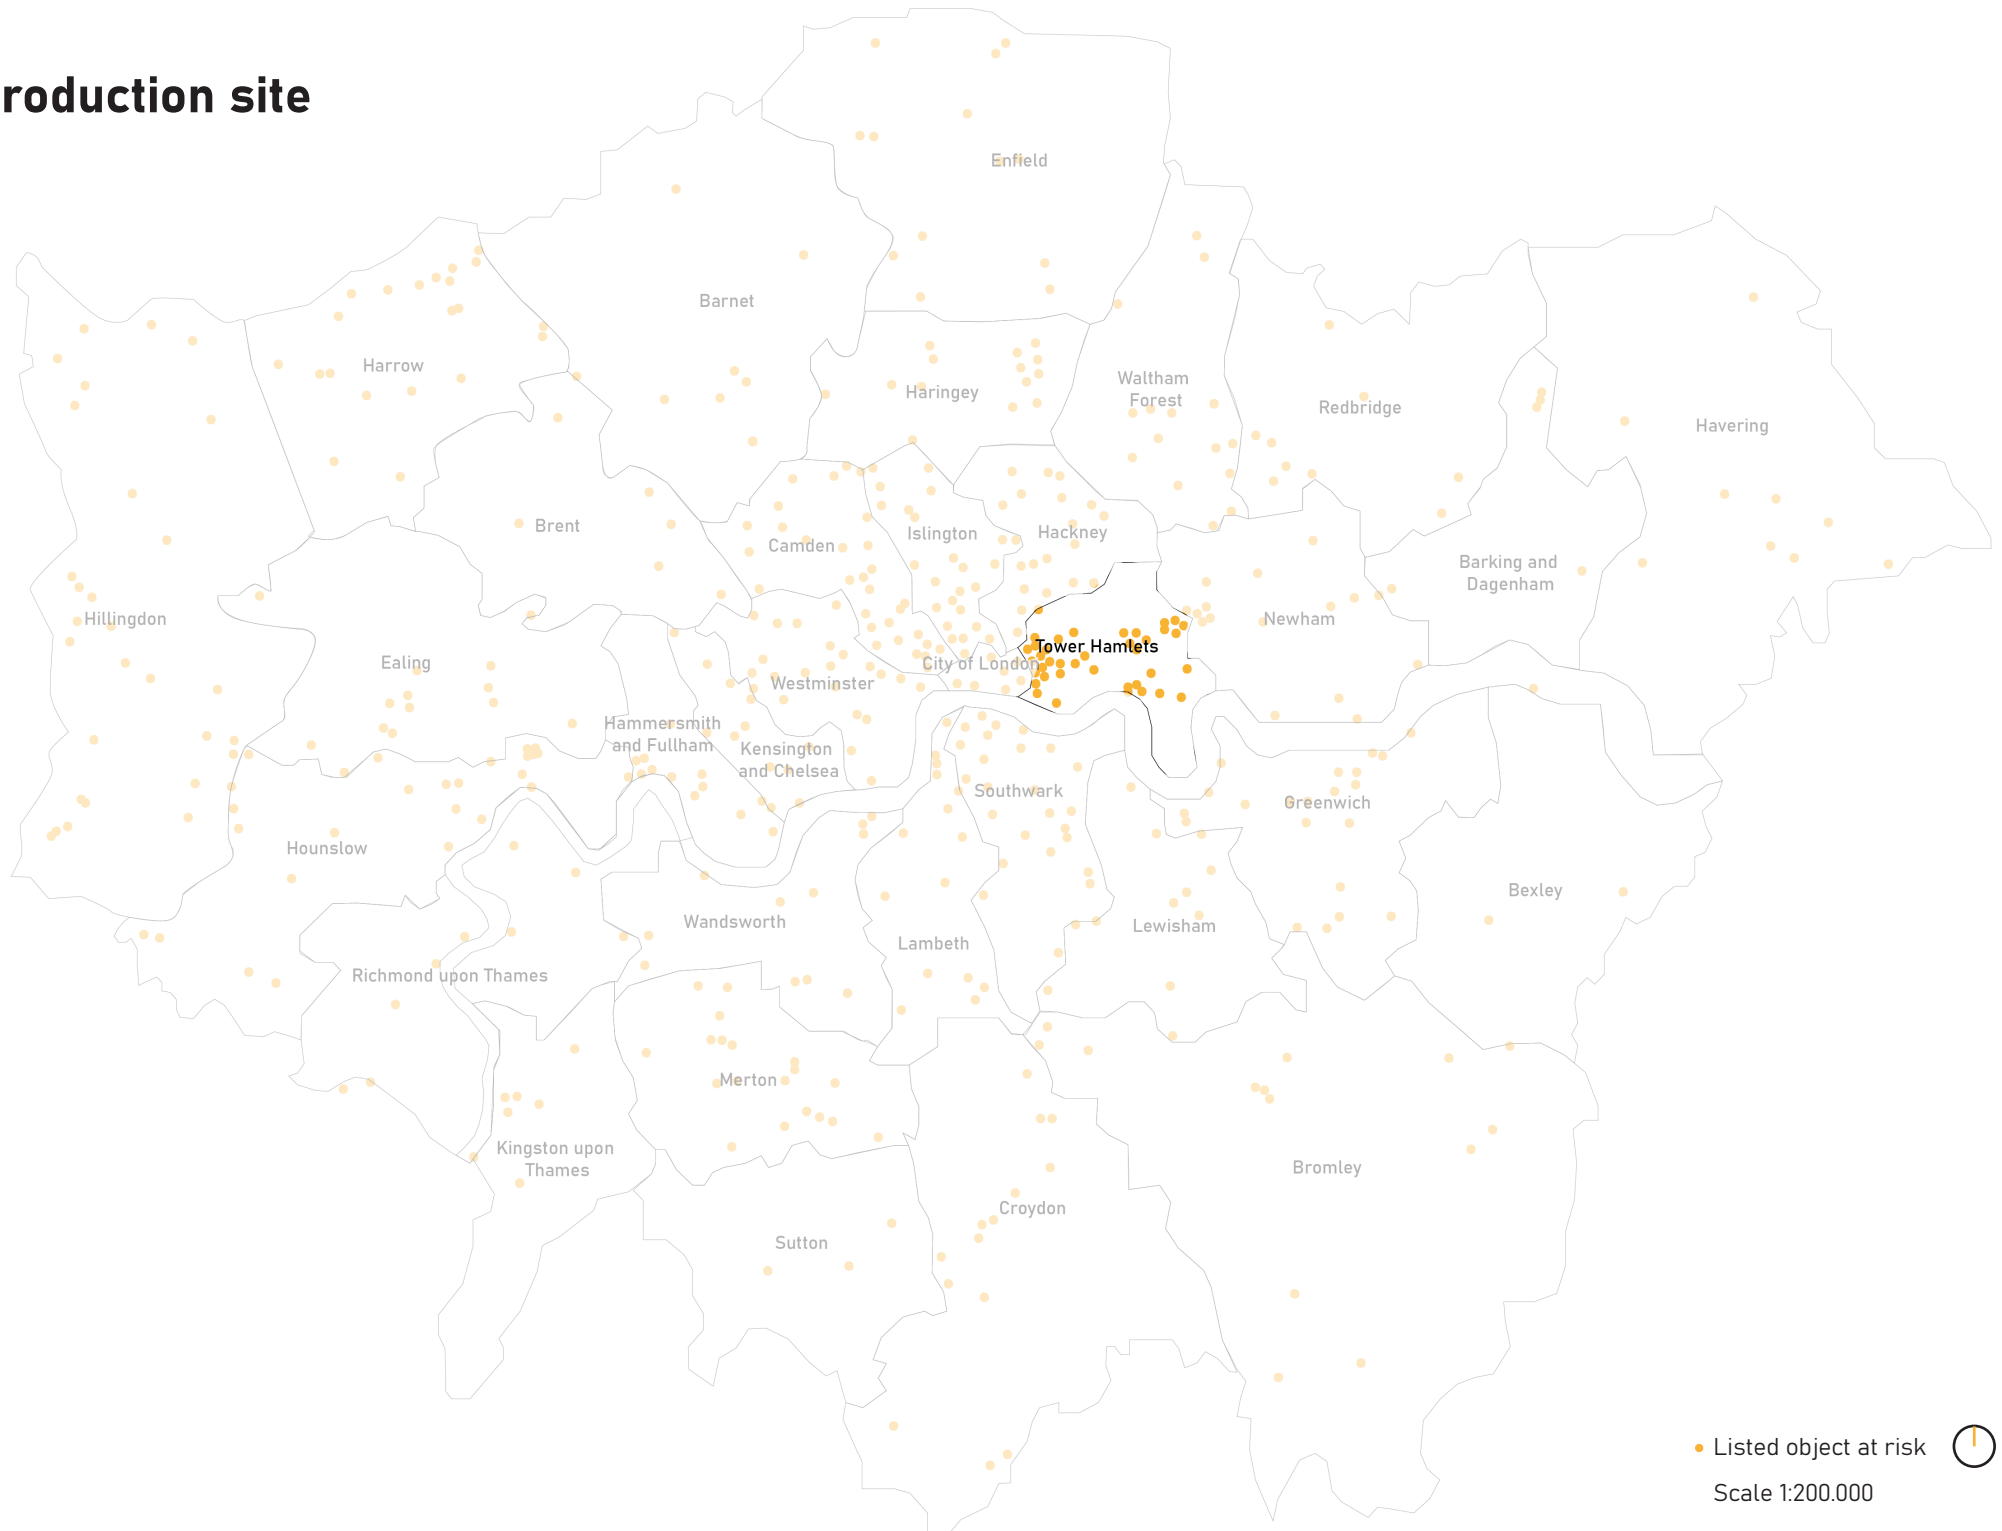

Approach: established by theoretical framework

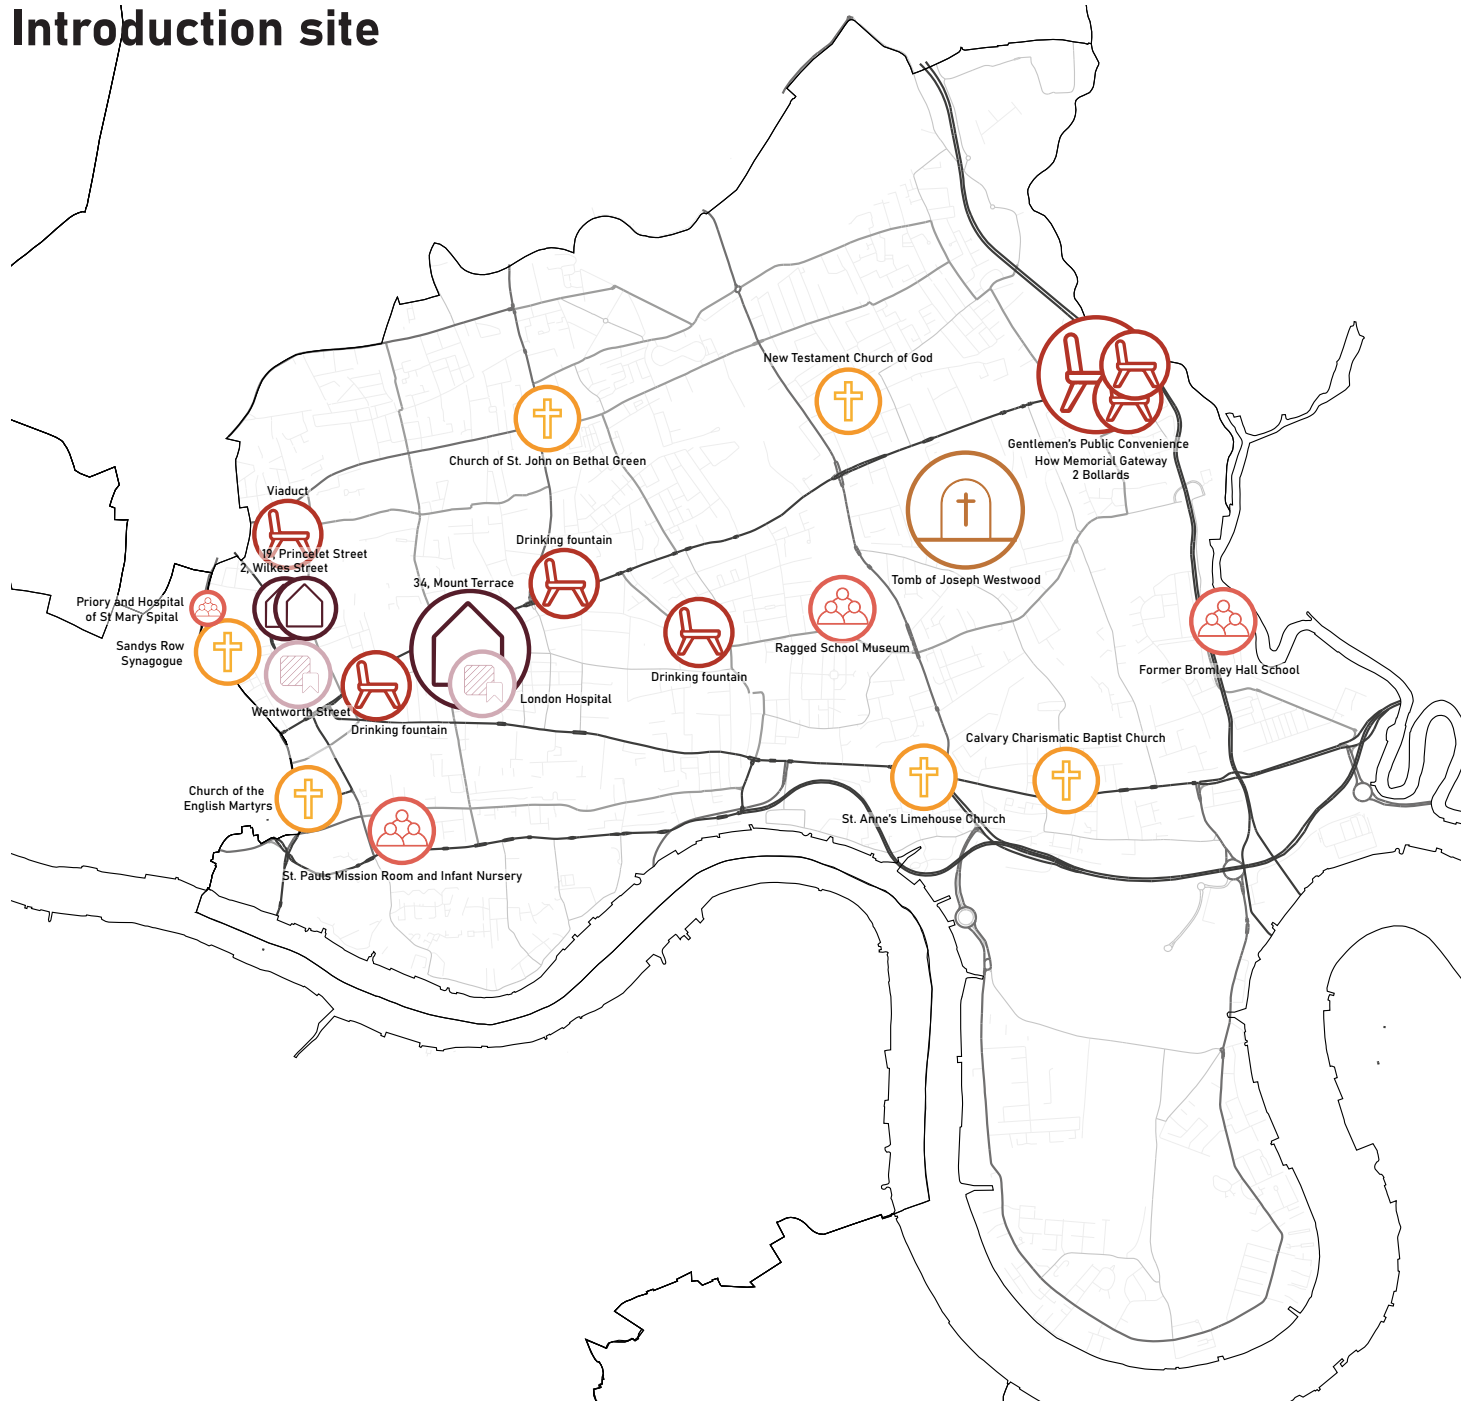

Approach: application in design process

THEORETICAL FOUNDATION
Defining an approach

CONTEXT

“Such an analysis proceeds by means of successive syntheses, causing certain elementary facts to come to light, which ultimately encompass more general facts. This analysis... becomes capable of providing us with a fairly complete knowledge of the city. ”

Rossi, A. 1982. “The Architecture of the City”. In Urban Design Ecologies edited by McGrath, B. (2013). p. 23

Interpreting context

People, ethnicities, relations, culture, religion, identity
Employment, housing, affordability, profit, income
Uses, functions, patterns,
Previous structures, previous qualities, previous uses
Modes of transportation, routing, circulation, networks
Colour, rythm, building materials, finishes
Nature, environment, sustainability, materials,

SOCIAL-CULTURAL CONTEXT

Plumstead Centre								

Legend:

	Disturb old materials in a minimal way with new materials		Improve circulation		Use materials that are similar to surroundings		Introducing green that was missing
	Reinstating previous use		New entrance(s)		Bringing back to previous state of building		Maintaining and protecting green
	Reinstating underused function to original level		Bring back destroyed part of building		Make shopping place		Placing use of context
	Make place for expression of culture		Create new workspaces in area		Place missing use in context in building		Sustainability is considered in intervention
	Create a meeting space		Place profitable use		Making sure use can continue		

Tools per context

Intangible context				Tangible context		
Social-cultural context 	Economical context 	Use context 	Historical context 	Infrastructural context 	Material context 	Ecological context 
 Make place for expression of culture	 Create new workspaces in area	 Place missing use in context in building	 Reinstating previous use	 Improve circulation	 Use materials that are similar to surroundings	 Introducing green that was missing
 Create a meeting space	 Make shopping place	 Making sure use can continue	 Bringing back to previous state of building	 New entrance(s)	 Disturb old materials in a minimal way with new materials	 Maintaining and protecting green
	 Place profitable use	 Placing use of context	 Bring back destroyed part of building			 Sustainability is considered in intervention
			 Reinstating underused function to original level			

APPLICATION OF APPROACH

Connect to socio-cultural context

Make place for
expression of culture

Create a meeting
space

Connect to socio-cultural context

Whitechapel Road Consultation:
- More places to sit, relax and socialise

Make place for
expression of culture

Create a meeting
space

Connect to socio-cultural context

Make place for expression of culture

Create a meeting space

Create visual connections between levels

Connect to economical context

Create new
workspaces
in area

Make shopping place

Place profitable use

Connect to economical context

Create new workspaces in area

Make shopping place

Place profitable use

Connect to economical context

Create new
workspaces
in area

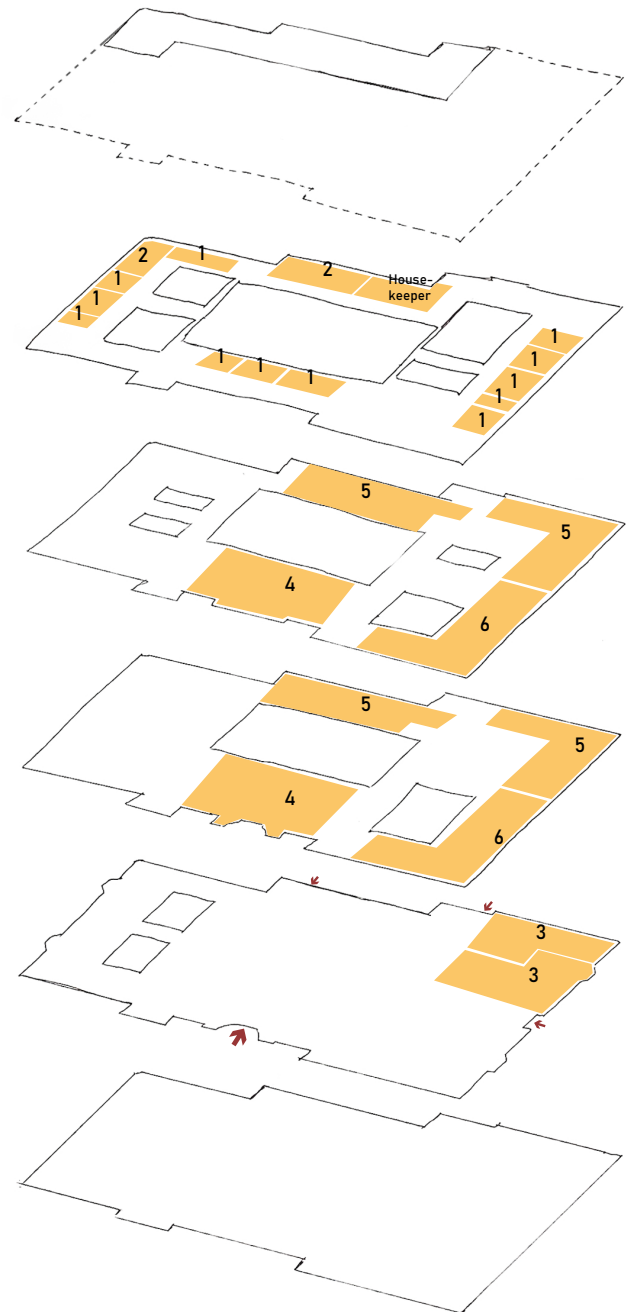

Make shopping place

Place profitable use

Connect to economical context

Create new workspaces in area

Make shopping place

Place profitable use

Connect to use context

Place missing use in context in building

Making sure use can continue

Placing use of context

Connect to use context

Place missing use in context in building

Making sure use can continue

Placing use of context

Connect to use context

Place missing use in context in building

Making sure use can continue

Placing use of context

Connect to use context

Historic England Archive, bl23996

Place missing use in context in building

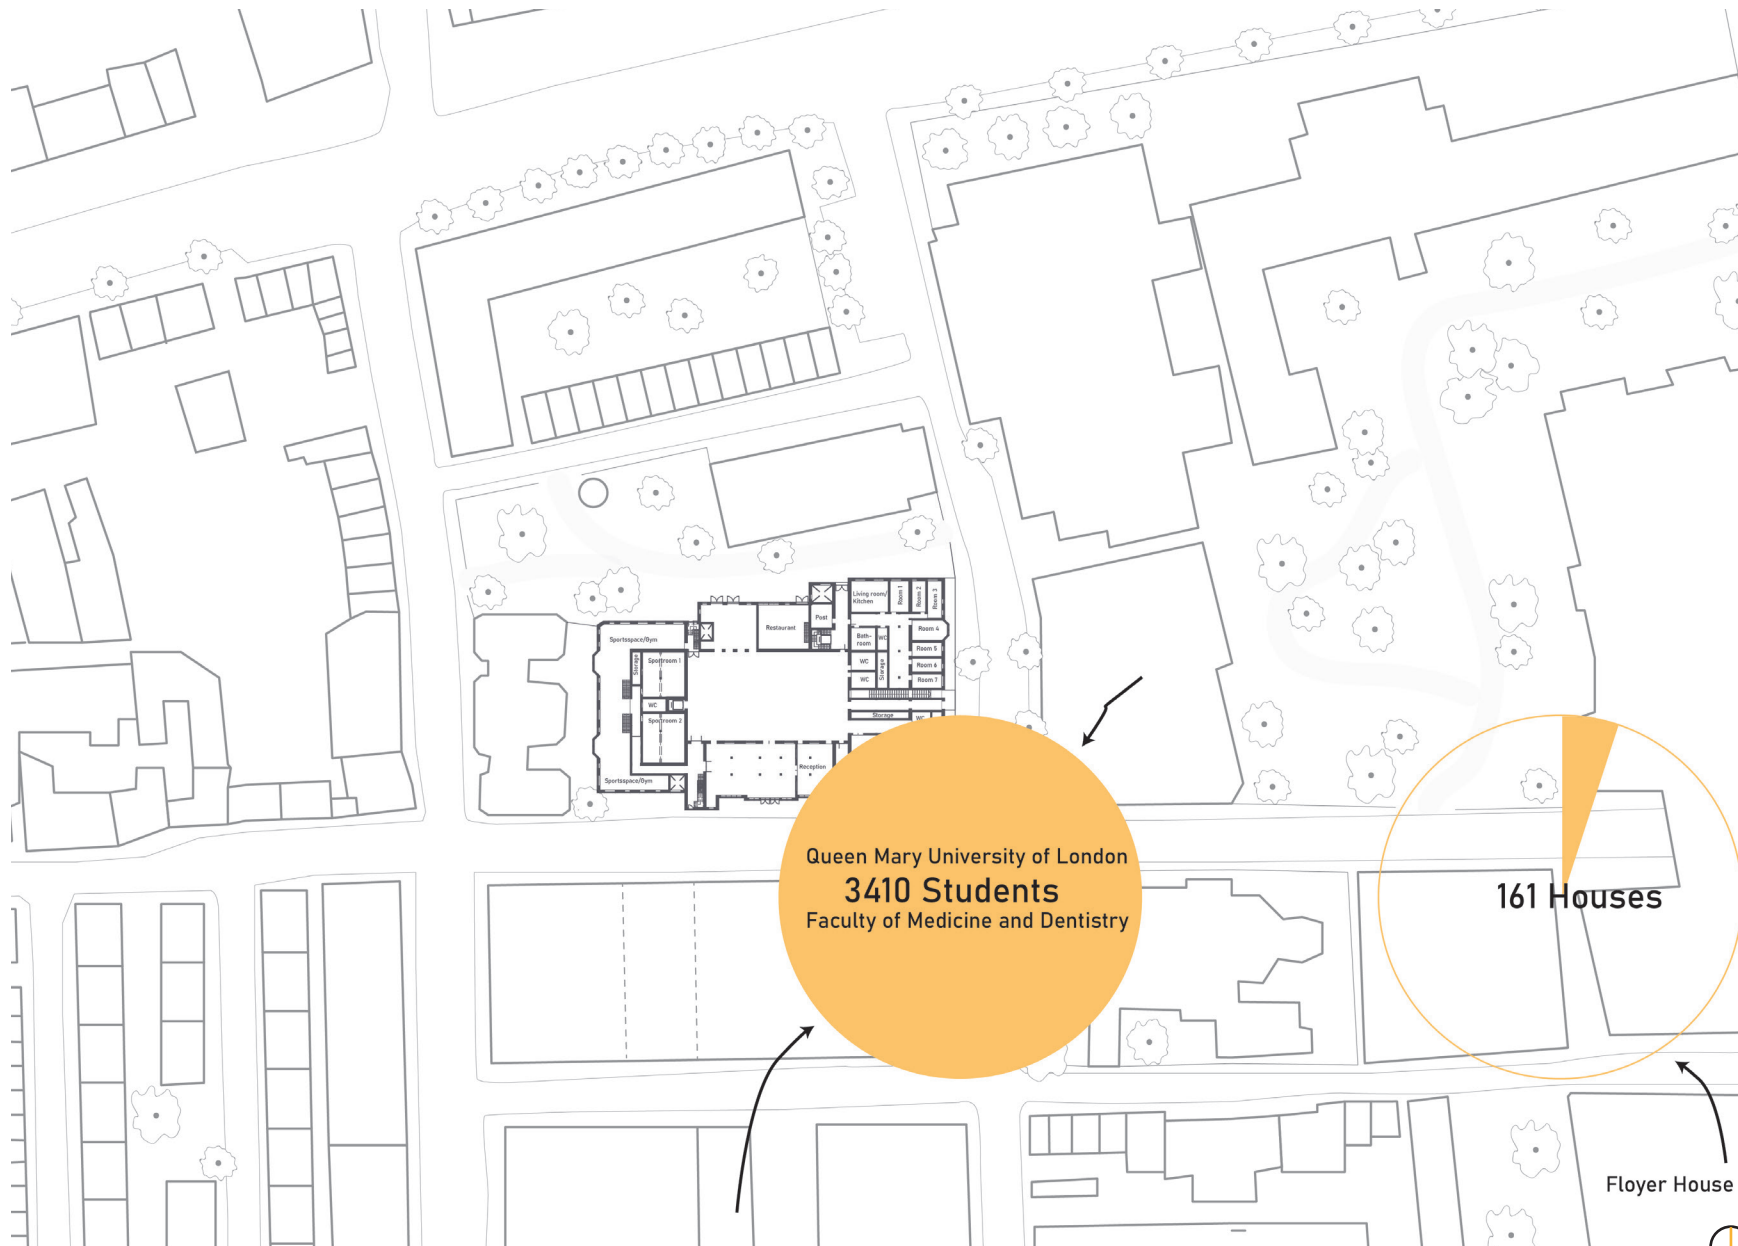

Making sure use can continue

Placing use of context

Connect to use context

Place missing use in context in building

Making sure use can continue

Placing use of context

Connect to historical context

Reinstating previous use

Bringing back to previous state of building

Bring back destroyed part of building

Reinstating underused unction to original level

Connect to historical context

OS Maps, 1893

Reinstating previous use

Bringing back to previous state of building

Bring back destroyed part of building

Reinstating underused unction to original level

Connect to historical context

Reinstating previous use

Bringing back to previous state of building

Bring back destroyed part of building

Reinstating underused function to original level

Connect to infrastructural context

Improve circulation

New entrance(s)

Connect to infrastructural context

Improve circulation

New entrance(s)

Create new
infrastructural layer

Connect to infrastructural context

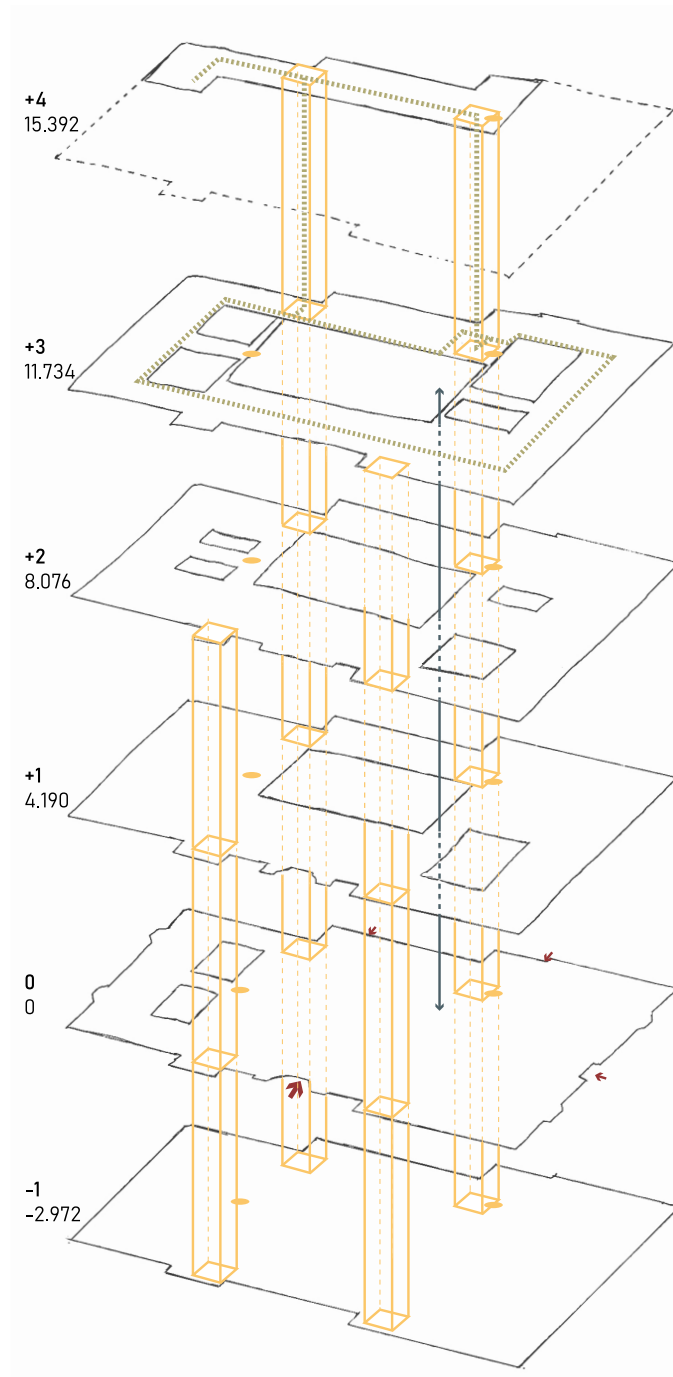

Improve circulation

New entrance(s)

Create new infrastructural layer

Connect to material context

Use materials that
are similar to
surroundings

Disturb old materials
in a minimal way with
new materials

Connect to material context

Whitechapel Road Consultation:
- Respect the heritage of the existing buildings

Use materials that are similar to surroundings

Disturb old materials in a minimal way with new materials

Connect to material context

Gare Maritime (Neutelings Riedijk Architecten, Brussels, Belgium)

Use materials that are similar to surroundings

Disturb old materials in a minimal way with new materials

Connect to material context

Use materials that are similar to surroundings

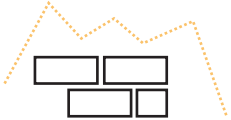

Disturb old materials in a minimal way with new materials

Connect to material context

Use materials that
are similar to
surroundings

Disturb old materials
in a minimal way with
new materials

Contrast to
break through
monotonousness

Connect to material context

Use materials that are similar to surroundings

Disturb old materials in a minimal way with new materials

Contrast to break through monotonousness

Pay attention to transition in materiality

Connect to ecological context

Introducing green
that was missing

Maintaining and
protecting green

Sustainability is
considered
in intervention

Connect to ecological context

Introducing green
that was missing

Maintaining and
protecting green

Sustainability is
considered
in intervention

Connect to ecological context

Introducing green
that was missing

Maintaining and
protecting green

Sustainability is
considered
in intervention

Connect to ecological context

Introducing green that was missing

Maintaining and protecting green

Sustainability is considered in intervention

Densifying to make better use of space

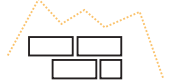

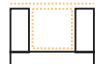

CONCLUSION AND REFLECTIONS

In what way can a context-driven approach contribute to making heritage, that lost connection to the surroundings, an integral part of the current palimpsest again?

Tools to make building part of palimpsest

Intangible context				Tangible context		
Social-cultural context 	Economical context 	Use context 	Historical context 	Infrastructural context 	Material context 	Ecological context 
 <p>Make place for expression of culture</p>	 <p>Create new workspaces in area</p>	 <p>Place missing use in context in building</p>	 <p>Reinstating previous use</p>	 <p>Improve circulation</p>	 <p>Use materials that are similar to surroundings</p>	 <p>Introducing green that was missing</p>
 <p>Create a meeting space</p>	 <p>Make shopping place</p>	 <p>Making sure use can continue</p>	 <p>Bringing back to previous state of building</p>	 <p>New entrance(s)</p>	 <p>Disturb old materials in a minimal way with new materials</p>	 <p>Maintaining and protecting green</p>
 <p>Create visual connections between levels</p>	 <p>Place profitable use</p>	 <p>Placing use of context</p>	 <p>Bring back destroyed part of building</p>	 <p>Create new infrastructural layer</p>	 <p>Contrast to break through monotonousness</p>	 <p>Sustainability is considered in intervention</p>
			 <p>Reinstating underused function to original level</p>		 <p>Pay attention to transition in materiality</p>	 <p>Densifying to make better use of space</p>

New additions

Intangible context				Tangible context		
Social-cultural context 	Economical context 	Use context 	Historical context 	Infrastructural context 	Material context 	Ecological context 
 Make place for expression of culture	 Create new workspaces in area	 Place missing use in context in building	 Reinstating previous use	 Improve circulation	 Use materials that are similar to surroundings	 Introducing green that was missing
 Create a meeting space	 Make shopping place	 Making sure use can continue	 Bringing back to previous state of building	 New entrance(s)	 Disturb old materials in a minimal way with new materials	 Maintaining and protecting green
 Create visual connections between levels	 Place profitable use	 Placing use of context	 Bring back destroyed part of building	 Create new infrastructural layer	 Contrast to break through monotonousness	 Sustainability is considered in intervention
			 Reinstating underused function to original level		 Pay attention to transition in materiality	 Densifying to make better use of space

Heritage as part of the Palimpsest

Thank you!
