

RESPITE - rethinking the state of adolescent palliative care

P5 Presentation

Kasia Antoszyk

20/06/23

MOTIVATION

FOCUS

“The prevention and relief of suffering of adult and paediatric patients and their families facing the problems associated with life-threatening illness. These problems include the physical, psychological, social and spiritual suffering of patients, and psychological, social and spiritual suffering of family members” (WHO, 2018)
